

HOSPITALITY SOLUTIONS

Polytex Enhances Brand Experience and Cuts Operational Costs.

Polytex solutions support the entire range of garment and linen needs for hotel chains, holiday leisure resorts, sports and fitness centers. Polytex workwear and towel management solutions include automated self-service units, item usage tracking and accurate inventory control. Polytex solutions support the daily needs of tens of thousands hospitality workers in hundreds of organizations worldwide.

Monitor and Control Inventory

Monitor and control workwear inventory levels according to type of workwear, color, size and popularity. Ensure accurate and timely availability of workwear items for each department or team.

Cut the Cost of Your "Lost Towel" Budget

Polytex solutions eliminate the "lost towel" syndrome and reduce wear and tear of clothing with automated self-service dispensing and return units. Staff can accurately track usage and bill customers when the return of an item is not registered in the system.

Create a Superior Hotel Guest Experience

Hotel guests expect much more than clean bed sheets, and bathroom towels. Polytex helps you to convey the right image by making sure hotel staff look smartly dressed and confident during all guest interactions.

Increase Convenience at Hotels and Fitness Centers

Offer convenient towel services with fast and easy access via a membership ID card or a pay-per-use swipe card. Polytex automated, electronic self-service units enable club members to collect and return items without the need to queue for service.

Our Value Proposition

Polytex solutions reduce the complexity and cost of workwear, towel and linen management for the hospitality industry. Polytex helps your business to achieve a high level of hygiene, strengthen your brand image and reduce ongoing operation costs.

Full Range of Solutions

Polytex offers a comprehensive suite of solutions fully customizable to meet customer needs and requirements.

Dispensing Unit: Scalable dispensing machines based on fast and simple to use user identification.

Return Unit: Scalable return machines based on fast and simple to use user identification.
