

## INDUSTRY SOLUTIONS

# Polytex Helps Manufacturers to Focus on Core Business Operations

Polytex delivers fresh, clean and hygienic workwear every day to tens of thousands of people working in hundreds of organizations worldwide. Polytex automated workwear management solutions are suitable for deployment across a wide range of regulated industries including electronics, semi-conductors, chemical production, medical equipment, pharmaceuticals, food and beverage.

### Convenient, Hassle-Free Solution

Polytex can be deployed in multiple locations across the organization to save time and increase efficiency. Employees benefit from convenient, 24/7 self-service collection and return of workwear items.

### Health and Safety Compliance

Polytex offers a fully automated hands-free solution to prevent cleanroom contamination by clothing items. Polytex products ensure full compliance with ISO, GMP, DA/TUV regulations, ADD and ESD protection guidelines.

### Lower Cost Per Employee

Organizations can eliminate the use of expensive storage space, gain accurate control over clothing usage and reduce laundry operation costs significantly through automated self-service distribution and return of workwear clothing items.

### Simplified Inventory Management

The Polytex Total Care Manager application simplifies inventory management and reduces stock levels significantly. Polytex inventory management enables accurate tracking, monitoring and control of all workwear items according to type, size and color variation.

## Our Value Proposition

Polytex Technologies offers reliable automated workwear management solutions, with convenient self-service operation, accurate usage tracking, and less-cost-per-employee with full compliance to major industry health and safety regulations.

## Full Range of Solutions

Polytex offers a comprehensive suite of solutions fully customizable to meet customer needs and requirements.

**Dispensing Unit:** Scalable dispensing machines based on fast and simple to use user identification.

**Return Unit:** Scalable return machines based on fast and simple to use user identification.

**Garment Tracker:** Accurate and reliable high-volume garment tracking capabilities.

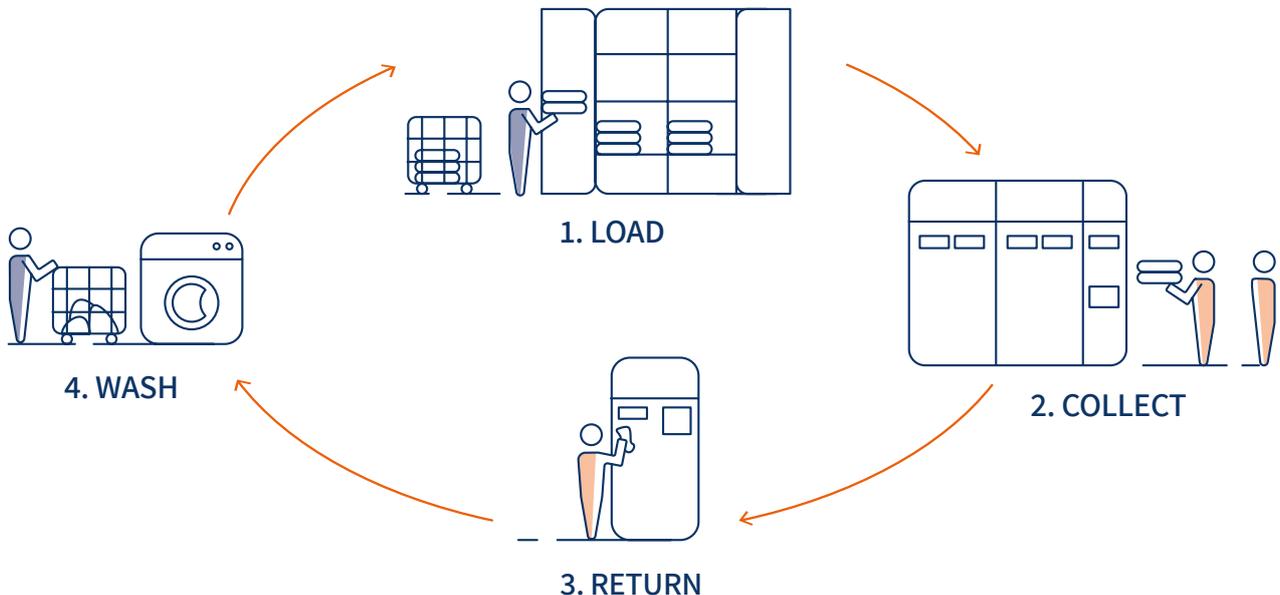

**Multilocker Unit:** Store and retrieve personal items via a personal ID card or biometric reader.
